A style guide, or style manual, is a set of standards for the writing and design of documents, either for general use or for a specific publication, organization or field.The implementation of a style guide provides uniformity in style and formatting within a document and across multiple documents. A set of standards for a specific organization is often known as "house style".

[How to Make the Perfect Web Design Style Guide](#)

This Style Guide is intended primarily for English-language authors and translators, both in-house and freelance, working for the European Commission. But now that so many texts in and around the EU institutions are drafted in English by native and non-native speakers alike, its rules, reminders and handy references aim to serve a wider readership as well. In this guide, 'style' is ...
