The HYSYS default is mole fractions, however the user can also specify mass fractions, liquid volume fractions, or flows of each component. If the user is specifying fractions, all fractions must add up to 1. Enter mole fraction of 1 in the H2O section to indicate 1 mole fraction of water.

Note that all referrals to manuals are in yellow and if the manual in question is on the HYSYS web page, like the Tutorials Book, then the reference will also be a link. Because I don't believe in duplication of effort (especially my own), this web page is intended to be complimentary to those manuals. Here on the web page, I hope to fill in the blanks left by the books, serve as a quick ...
