

SWITCHING AND TRAFFIC THEORY FOR INTEGRATED BROADBAND NETWORKS THE SPRINGER INTERNATIONAL SERIES IN ENGINEERING AND COMPUTER SCIENCE

Jan 27, 2021

[Switching And Traffic Theory For Integrated Broadband Networks The Springer International Series In Engineering And Computer Science](#)

This problem has roots in both classical switching for telephony and in switching for packet networks. There are a number of new twists here, however. The first is that the high speeds necessitate the use of highly parallel processing and place a high premium on computational simplicity. The second is that the required data speeds and allowable delays of different applications differ by many ...
