The central research question in this study is how values and norms manifest themselves in sport and what societal meanings they have. Contributions from several researchers in the field of sport provide a systematic treatment of values and norms in sport from a number of diverse perspectives. Hence, in the chapters of the book the central question is divided into different sub-questions.

critical reflection – denotes another level of reflection beyond what you might or might not cover in other forms of reflection (eg. diary, journal). Sometimes action is just "too hot" for us to consciously reflect-in-action (as the incident happens) (eg. Eraut, 1994). This is why a critical reflection framework may be better suited as it requires reflection in relation to past and future ...
