Categories and values (see below) are plotted on axes. Most charts have two axes. Throughout I use the word "category" to refer to something discrete that is plotted on an axis, for example France, Germany, Italy and The UK, or 2016, 2017, 2018 and 2019. I use the word "value" to refer to something more continuous plotted on an axis, such as sales or number of items etc. With a few ...

Your picture may well be by one of these hobby artists who turn out beautiful work that has only a value that reflects its worth as a purely decorative item. If you like your painting, put it on the wall and enjoy it. Not all good paintings are valuable in monetary terms. If, however, you feel strongly that your picture is a hidden gem, seek further advice from an art sales professional such ...

As a representational painter with some skills, I often wonder what relevance my art form has in the contemporary world. Everywhere I go I see people more engaged with a virtual world than with their life surroundings, faces gazing into a smartphone screen, mesmerized. I am lucky that this medium is friendly to painters who create images that intrigue, and my paintings include representations ...

In painting, value changes can be achieved by adding either black or white to the chosen color. (see the grey scale chart) However, this also reduces the saturation and adds to the dilution of the color. (see the color chart) Believe it or not, value is more important than color to the design and success of a painting. Here's why: Value is used to create a focal point within a painting or ...
